Depending on how you intend to use the **M1** speaker, whether wall mounted or as a portable speaker. You can leave it connect to the mains supply at all times. The battery is fully protected.

CHARGING IT UP:

1. When used as a portable speaker we recommend a full 6hr charge before use.

TURN IT ON:

1. Press and hold  button until the speaker says "HELLO" with TWO beeps for stereo mode.
2. Press and hold the  button until the speaker says "Bluetooth pairing".
3. Enable Bluetooth on the device you want to pair to the Soul M1 speaker, whether its your mobile phone, Tablet, TV or Laptop. The name you will see is "Azatom Soul M1".
4. The Soul **M1** speaker will say outloud "Connected" when paired successfully.

The greatest feature of the AZATOM Soul **M1** Speaker is the ability to connect up to 100 speakers wirelessly and play your audio through all of them latency free at the same time. Each **M1** speaker can act as **MASTER** or **SUB**.

You only need (1) **MASTER** speaker to control (99) **SUB** speakers

Speaker Mode	Description for each Speaker Mode
MASTER	<ul style="list-style-type: none"> * When connected to phone directly it will control the group of enabled M1 speakers. * When adjusting the volume on the MASTER speaker it will auto change the volume on all SUB speakers. * When you power off the MASTER speaker it will power down the SUB speakers.
SUB	<ul style="list-style-type: none"> * Connects to MASTER speaker. * Can connect up to 150ft away from MASTER

Multiple Link Setup

INSTRUCTIONS:

1. Pair one **M1** speaker to you phone.
2. Press **MASTER** button on speaker. The **MASTER** LED light will flash. The **M1** speaker will say "Disconnected" whilst it is searching for **SUB** speakers.
3. Press the **SUB** button on the other **M1** speakers you want to add to the Group as SUBS.
4. The **MASTER** speaker will say "Connected" when it has and connected to the other **SUB** speaker(s) in the group.

ADD ADDITIONAL M1 SPEAKERS TO MULTIPLE LINK LATER:

1. Press **MASTER** button once on your **MASTER** speaker.
2. Press **SUB** button once on new **SUB** speaker.

HOW TO REMOVE AN M1 SPEAKER FROM THE MULTIPLE LINK GROUP

1. Press and **HOLD** the **MASTER** or **SUB** buttons for 4 second. The **M1 SUB** speaker will be removed from the Group.
2. To reconnect the speaker to the Group follow the "add additional speaker" setup above.

CHANNELS. HOW TO SET LEFT, RIGHT or MIXED CHANNELS.

If you want to use more than one speaker in a single room you may want to set separate left and right channels for stereo effect. Each speaker is set to Default both left/right channels. You will hear TWO beeps when it powers on.

1. After the M1 speaker has powered ON.
2. Double press the  button. ONE beep for left channel.
2. Double press the  button again. THREE beeps for right channel.
3. Double press the  button again. TWO beeps for Left/Right channel. The speaker will save the CHANNEL setting in memory.

Features when using M1 speaker

PLAY / PAUSE VIA THE SPEAKER:

1. You can Play or Pause your audio at any time via the speaker by pressing the  button.

TRACK CHANGE:

2. Press and hold the Volume +/- button until the track changes forwards and backwards.

SIRI / GOOGLE ASSISTANT:

3. When Google or Siri is enabled on your phone you can. Double press the  button and then start talking.

TV / PC / AUX MODE:

4. For TV setup you can connect via the AUX cable to your MASTER M1 speaker and link multiple SUB M1 speakers for complete surround sound.
5. For PC / Laptop you can connect via the AUX cable to a single M1 MASTER speaker or multiple SUB M1 speakers for Multiroom sound.

BATTERY LED STATUS CHECK:

6. Only when the M1 speaker is used on battery power. Press the  button once to view LED battery left (25-50-75-100%)

Important information

AUTOMATIC POWER OFF:

1. If there has been no sound for approximately 90 minutes, the **M1** speaker will automatically power off to save the battery.
2. If you are connected to the mains power the speaker will not automatically power off.

MULTIPLE LINK GROUPED SPEAKERS:

1. Once the M1 speakers have been previously paired and connected via Multiple link, they will automatically connect again to their previous setting when next powered on.
2. **Important:** You must power on all SUB M1 speakers within 1 minute of the MASTER speaker powering ON in order to resume Multiple Link. After 1 minute the MASTER speaker stops searching for SUB speakers and you will need to repeat Multiple Link setup as described on page 4.
